

PWIGS

PRINCETON WOMEN IN GEOSCIENCES

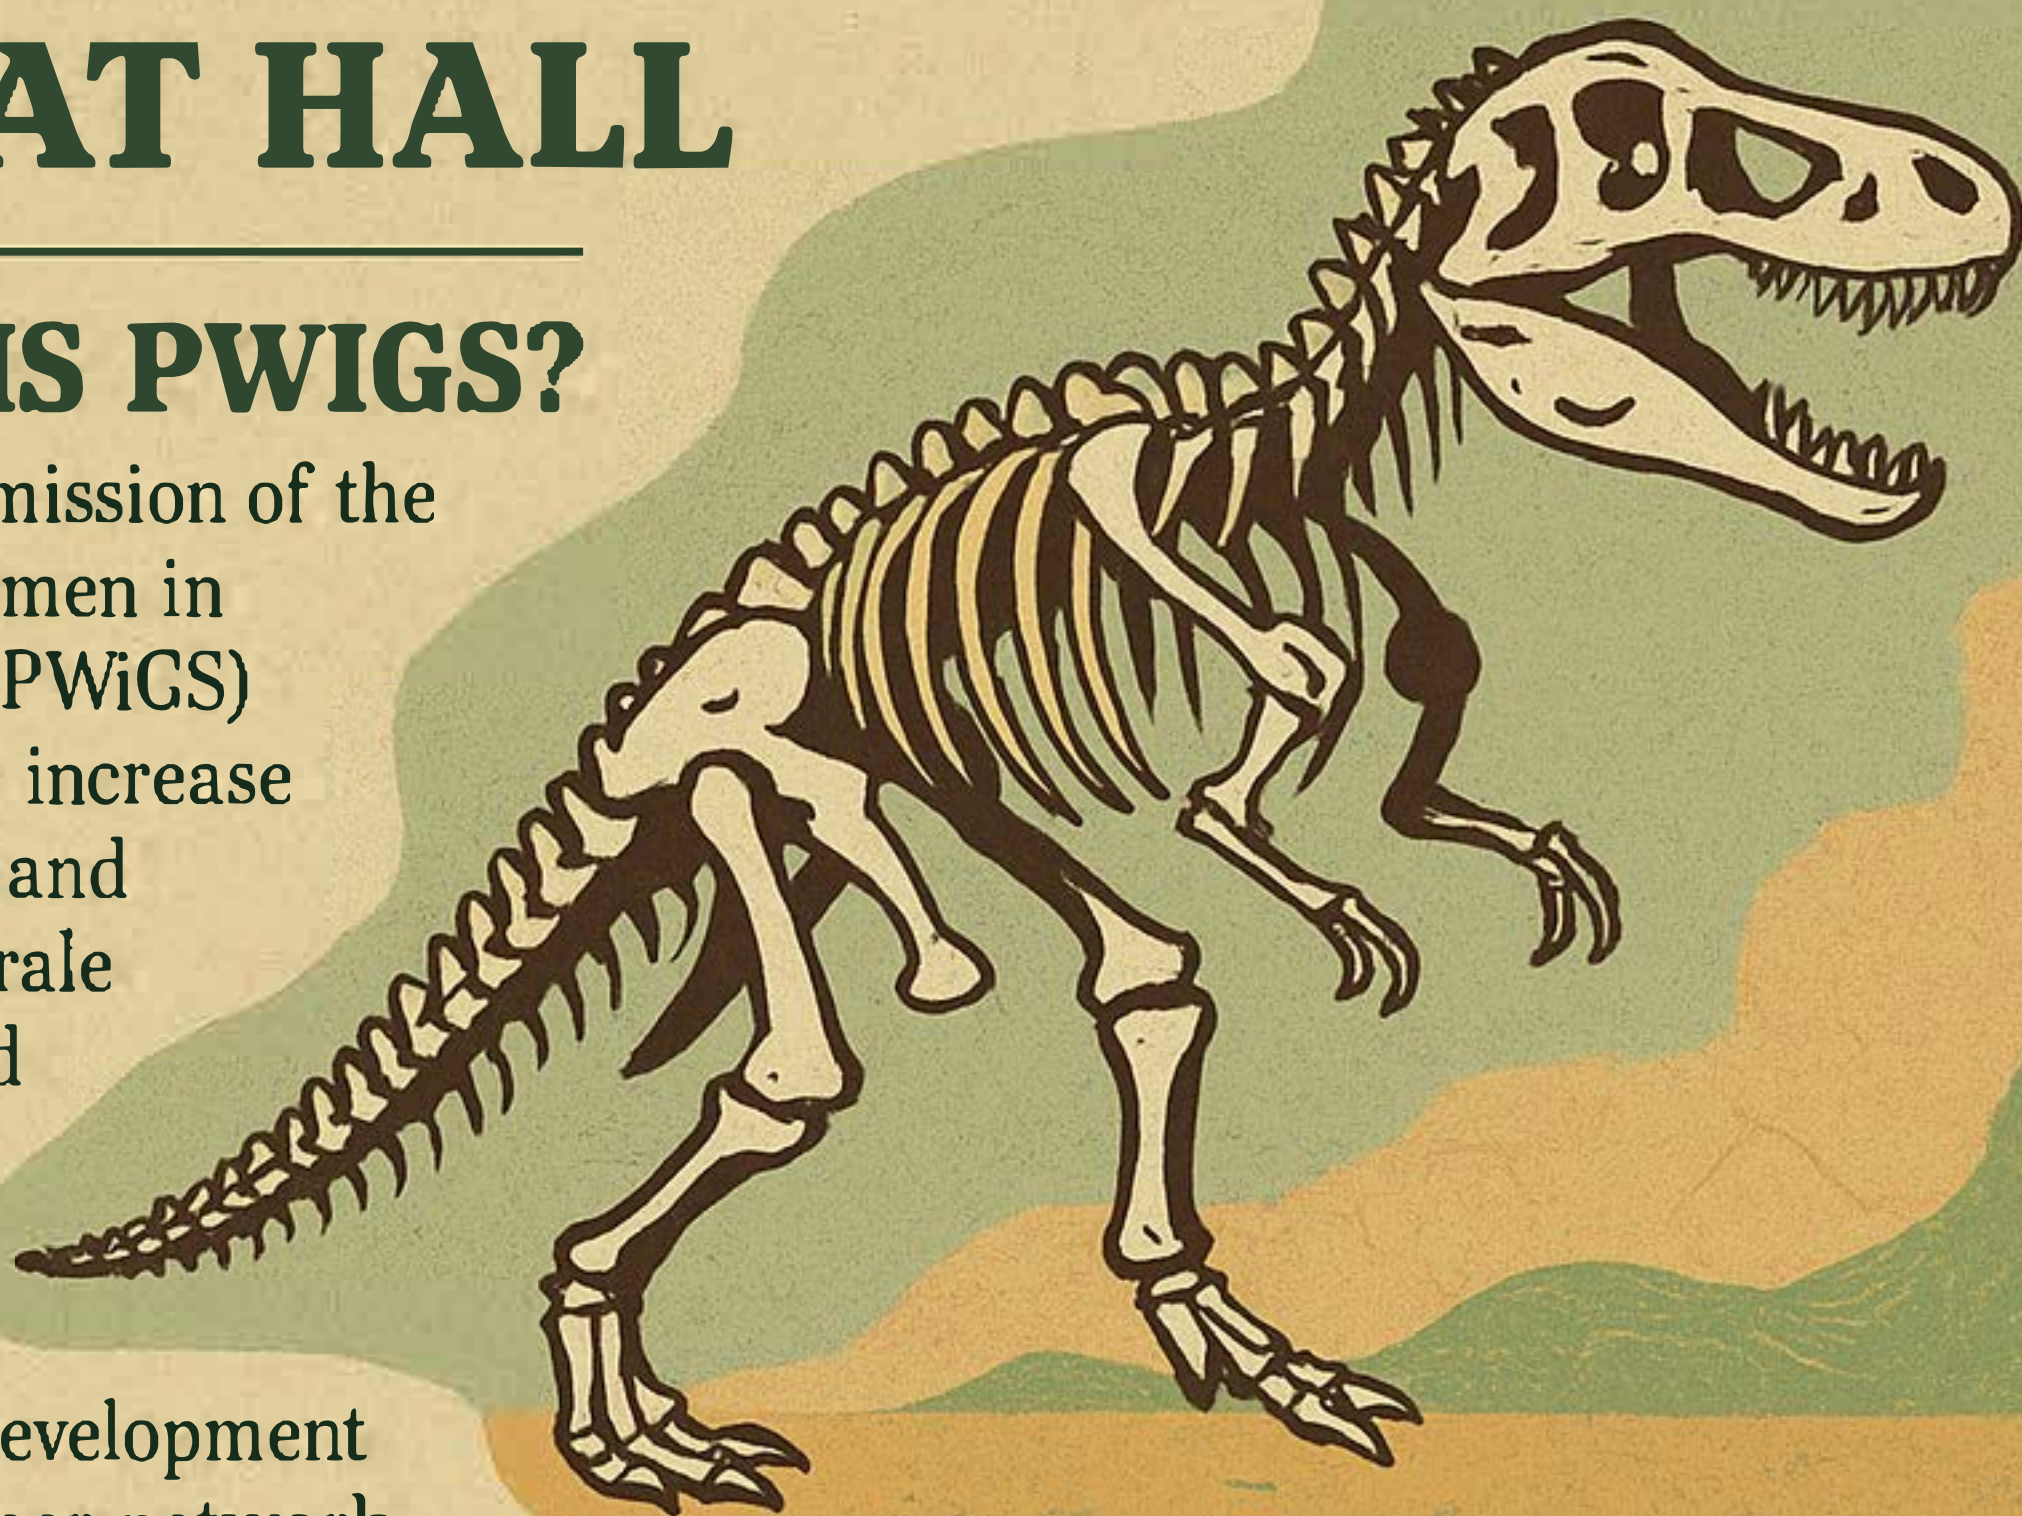

PWIGS MIXER

OCTOBER 8 • 5PM
GREAT HALL

WHAT IS PWIGS?

The primary mission of the Princeton Women in Geosciences (PWIGS) initiative is to increase the retention and boost the morale of women and femme in the Earth Sciences through the development of an active peer network and the fostering of mentorship.

While we are Princeton Women in Geosciences, all of our events are open to everyone in the department, regardless of gender, and we hope to see many of you at our events!
